

3D Stand

Quick positioning articulating arm

Positioning the digital microscope for precise analysis is simple with the 3D Stand's single tension adjustment knob. The 3D stand provides a great range of motion to set up and quickly change the inspection areas around the specimen. The articulating arm and base are made from high-quality anodized aluminum.

Features

- **Base Dimension:** 110mm x 120mm
- **Vertical Post:** 150mm
- **Horizontal Post:** 180mm
- **Working Distance:** max ~240mm
